

November 2, 2021

We are living well at Evergreen Fountains!

As of November 2, 2021, Evergreen Fountains has no COVID-19 cases to report.

Evergreen Fountains Senior Living Community is committed to enhancing the vitality of our Residents – their wellbeing is our top priority. We continue to implement all necessary health and safety precautions to help keep all of those who live, work at, or visit Evergreen Fountains virus free.

For further added health care and safety in our community, we have established an on-site health clinic. Dr. Robert Hustrulid MD, an experienced internal medicine doctor, is now caring for the medical needs of our Residents and Staff.

On site tours are now available daily, drop in or call 509.922.3100 .
